PROFILE

Electrical & Computer Engineering student at Shanghai Jiao Tong University with a track record of leading cross-functional teams across 4 concurrent projects in research, software, and hardware. Experienced in identifying user pain points, validating product ideas before building, teamwork, and aligning stakeholders from student communities to corporate partners. Actively studying and applying Agile, Design Thinking, and Lean Startup to build a rigorous foundation in product management.

EDUCATION

Shanghai Jiao Tong University B.S Electrical & Computer Engineering – Minor in Data Science	Sep. 2022 – Aug. 2026 Shanghai, China
• <u>Coursework</u> : Data Science w/ Python, Supply Chain Management, Entrepreneurship, Data Science Computation Methods	
Nanyang Technological University Electrical & Computer Engineering (Student Exchange Program)	Aug. 2022 – Dec. 2022 Singapore

WORK EXPERIENCE

Shanghai Jiao Tong University Teaching Assistant	Feb. 2024 – Dec. 2025 Shanghai, China
• Led a 4-person teaching team to design and run 3 course competitions for 60+ students, owning both team management and competition structure.	
• Identified recurring skill gaps among first-year students in early competitions; designed and introduced a pre-event workshop that increased average scores by 100% and reduced failure rate by 50% .	
• Recognized for teaching quality with the Outstanding TA Award 3 times and the Excellent TA Award 2 times .	
Moham Labs (森翰数字科技) Frontend Machine Learning Internship	Oct. 2024 – Feb. 2025 Shanghai, China
• Evaluated AI orchestration frameworks for natural-language-to-action translation; selected and implemented LangGraph as the production solution powering the workflow above.	

LEADERSHIP ROLES

LaowaiCentral: SJTU International Events Platform Co-founder	Apr. 2026 – Present Shanghai, China
• Built an AI events platform for international students at SJTU, validated by surveys and competitor research that identified 3 unmet needs before writing a single line of code.	
• Executed a launch starting within the faculty network, using a self-built analytics dashboard to track retention rates .	
• Performed A/B testing on UI/UX layouts, which showed that users preferred browsing by category over a single feed.	
• Secured a partnership with Fudan University's Media and Communications Club to migrate their international newsletter onto the platform, expanding reach beyond SJTU.	
Zhejiang Huayou Cobalt Project Lead	May. 2026 – Present Shanghai, China
• Lead a 5-person research team to design a first-of-its-kind detection-and-dismantling system for e-cigarette lithium-battery disposal, building the process from the ground up in the absence of an industry standard.	
• Restructured the project roadmap per HQ leadership's direction following stakeholder alignment meetings, reprioritizing delivery toward a feasibility report and implementation plan.	

AWARDS

1st Prize in China's 13th National Marine Vehicle Design Competition	Sep. 2023 – Aug. 2024
• Led the design and development of a vehicle for cave exploration and flood rescue scenarios as part of a 4-person team.	

SKILLS

Languages: English (Fluent), Chinese (Fluent), Malay (Intermediate), Cantonese (Intermediate)
Analytics & Collaboration: Python, R, SQL, Google Analytics, Excel, Powerpoint, Google Forms, Feishu (Lark)
AI Tools: Claude Code, Cursor, Gemini, OpenAI, Qwen, Deepseek, API Calling, Prompt Engineering, Tool Calling,
Developer Tools: Git, Github, VS Code, Postman, Docker, Supabase, Overleaf (LaTeX)
