PROFILE

Electrical & Computer Engineering student at Shanghai Jiao Tong University with a track record of leading cross-functional teams across 4 concurrent projects in research, software, and hardware. Experienced in identifying user pain points, validating product ideas before building, teamwork, and aligning stakeholders from student communities to corporate partners. Actively studying and applying Agile, Design Thinking, and Lean Startup to build a rigorous foundation in product management.

EDUCATION

Shanghai Jiao Tong University <i>B.S Electrical & Computer Engineering — Minor in Data Science</i>	09/22 – Present <i>Shanghai, China</i>
• <u>Coursework</u> : Data Science w/ Python, Supply Chain Management, Entrepreneurship, Data Science Computation Methods	
Nanyang Technological University <i>Electrical & Computer Engineering (Student Exchange Program)</i>	08/22 – 12/22 <i>Singapore</i>

WORK EXPERIENCE

Shanghai Jiao Tong University <i>Teaching Assistant</i>	02/24 – 12/25 <i>Shanghai, China</i>
• Advised 300+ students across Academic Writing, Supply Chain Management, and Engineering courses.	
• Organized 3 course competitions (60+ students), managing both the teaching team and student competition structure.	
• Identified recurring skill gaps among first-year students in early competitions; designed and introduced a pre-event workshop that increased average scores by 100% and reduced failure rate by 50%.	
• Recognized for teaching quality with the Outstanding TA Award 3 times and the Excellent TA Award 2 times.	
Moham Labs (森翰数字科技) <i>Frontend Machine Learning Engineer</i>	10/24 – 02/25 <i>Shanghai, China</i>
• Built a 3-screen animated UI for an agentic AI chatbot in and integrated it into an existing prototype within 1 week.	
• Designed a workflow to bring AI into a B2B client's BIM software, reducing modelling and simulation cycle times.	

LEADERSHIP ROLES

LaowaiCentral: SJTU International Events Platform <i>Co-founder</i>	04/26 – Present <i>Shanghai, China</i>
• Built an events platform for international students at SJTU, validated by surveys and competitor research that identified 3 unmet needs before writing a single line of code.	
• Executed a launch starting within the faculty network, using a self-built analytics dashboard to track retention rates.	
• Performed A/B testing on UI/UX layouts, which showed that users preferred browsing by category over a single feed.	
• Secured a partnership with Fudan University's Media and Communications Club to migrate their international newsletter onto the platform, expanding reach beyond SJTU.	
Zhejiang Huayou Cobalt <i>Team Leader</i>	05/26 – Present <i>Shanghai, China</i>
• Leading a 5-person research team to develop a safer and more efficient e-cigarette disposal system for Huayou Cobalt.	
• Visited Huayou HQ to align with stakeholders on project requirements; restructured the roadmap to prioritize a feasibility report and implementation plan based on their feedback.	
• Currently validating the effectiveness of the detection and dismantling systems through experimental prototyping.	

AWARDS

1st Prize in China's 13th National Marine Vehicle Design Competition	09/23 – 08/24
• Led the design and development of a vehicle for cave exploration and flood rescue scenarios as part of a 4-person team.	
• Went beyond the competition brief by delivering 3 working prototypes in a conceptual design category.	

SKILLS

Analytics & Collaboration: Python, R, SQL, Google Analytics, Excel, Powerpoint, Google Forms, Feishu (Lark)
AI Tools: Claude Code, Cursor, Gemini, OpenAI, Qwen, Deepseek, API Calling, Prompt Engineering, Tool Calling,
Developer Tools: Git, Github, VS Code, Postman, Docker, Supabase, Antigraity, Overleaf (LaTeX)
Languages: English (Fluent), Chinese (Fluent), Malay (Intermediate), Cantonese (Intermediate)
